

ZURICH BREAD FACTORY & CAFÉ

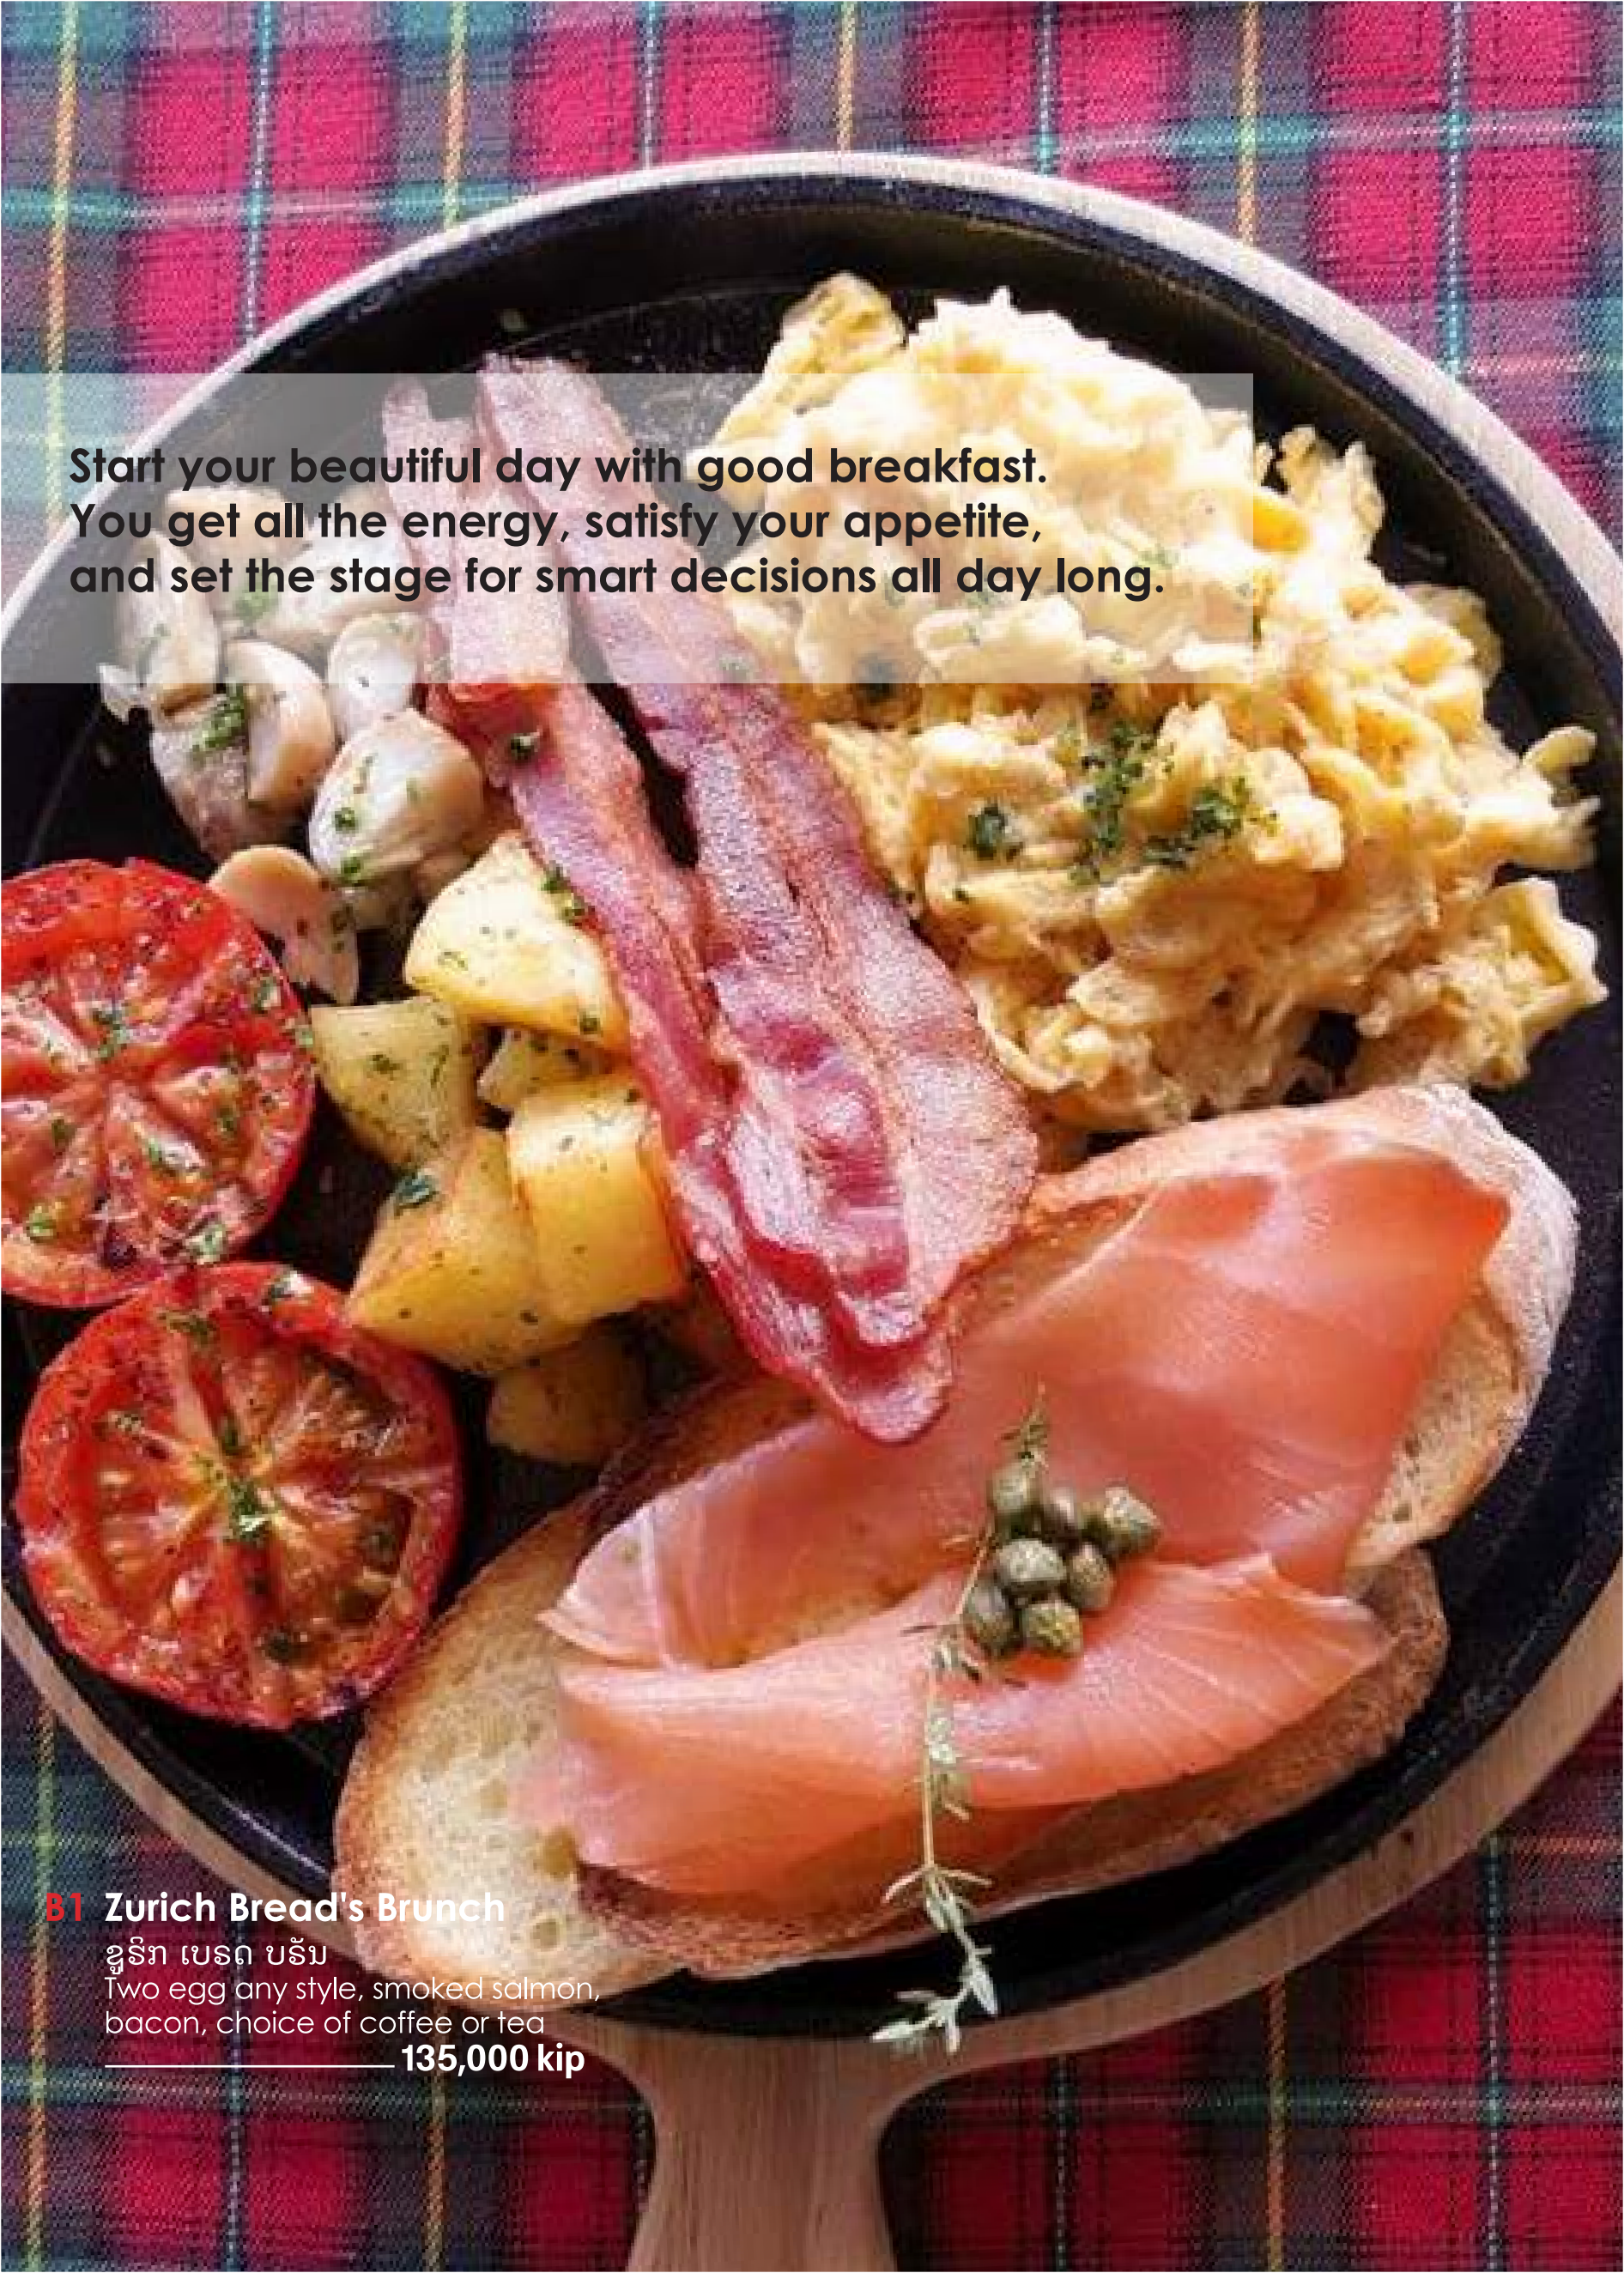

OUR BREAD

Zurich Bread specializes in traditional European and naturally leavened sourdough breads. Our signature breads are made from unbleached flour. At our cafes and restaurants you will find a selection of traditional German rye sourdoughs, traditional French crusty baguettes, seed loaves, Italian breads, and our famous pastries. Our breads are baked directly on stone tiles, giving them a robust and tasty crust that seals in flavor and keeps them fresh for longer. We only use traditional technique in making bread with slow fermentation to develop complex structures and flavors. Our bread is as good as bread can be, because we are passionate about bread.

Our pastries, croissant and danish are made according to traditional recipes that place utmost importance on taste and original style. No premixes and ready-to-use are used for our famous pastries. When you come to visit our any store and cafe, you have to try our best original premium hand-made croissant enriched a flavor of premium real butter selected from France and Australia developed by the heart of our chef.

Start your beautiful day with good breakfast.
You get all the energy, satisfy your appetite,
and set the stage for smart decisions all day long.
