

ZURICH BREAD

Most of our signature breads are sourdoughs and rustics. Sourdough breads use natural yeast to make the bread rise. The natural yeast cultures, also known as “*Starter*” or “*Levains*”, can be kept alive indefinitely with portion being removed to make each new batch of bread. Sourdough breads take longer to prove (rise) and develop complex structures and flavors. Some of our loaves prove over 2 days so we need 48 hours’ notice for wholesale or special ordering. With our highly experienced professional technical chefs we can ensure every perfect bite and flavor of our breads.

was established with philosophy and mission of making best artisan breads. We are passionate about bread, pastries and cakes and strive to preserve the culture and traditional artisan baking. All our products are handmade by our skilled bakers, fresh every day. We are one of the largest and premium bread factory making original European recipes from French, Swiss, Italian, German, Russian breads and much more. If you come to our stores,

you have to try our best original premium croissant and almond croissants which are our secret signature recipes created by our own chef.

PIZZA

THE SECRETS BEHIND THE PERFECT PIZZA: FROM NAPLES TO ZURICH BREAD

In Naples they say that fathers want their sons to be one of two things: a footballer for SSC Napoli or a pizza chef. There are nearly 3,000 pizzaiuoli in the city and the best are **“like celebrities in their own world”**. You might not often think about your pizza’s base but, in Naples, a pizzaiuolo is only as good as his crust. The ability to mix yeast, water, and flour to make dough, knead and flatten it to create the perfect cornicione-the puffy ledge around the pizza- is a connoisseur’s art. Our chefs are more obsessed with their dough than with their girlfriends. It’s their signature because it is the one thing you can’t hide behind. A Neapolitan pizza crust should have a thin floppy base,

a number of scorch marks (“leoparding”) and an airy cornicione. **“Like a good French sourdough with big airy bubbles”**.

“The Roman, Sicilian and other versions aren’t pizzas but variations on focaccia. The only pizza with its own traditional and cultural heritage is the Neapolitan one,” says food historian Antonio Mattozzi, author of *Inventing the Pizzeria*. Recently, UNESCO elevated Neapolitan Pizza-Making to “Intangible Cultural Heritage”

Our Zurich Bread, we handcraft the pizza dough with original cultural Neapolitan pizza making and we hope that our customers will appreciate the taste and passion in every bite of pizza slice made by the heart of our chefs.
